

LK130 Shear-Lock

Technical specification

Maximum shear force: 1,200kg
Built-in micro controller with door open delay time
Suitable for all types of 90° to 180° open aluminium or wooden doors
Door position detection outputs
Power Supply: 12/24VDC (auto-adjusting)
Operating current: 900mA
Standby current: 220mA@12VDC / 190mA 24VDC
Dimensions body: 182mm(L) x 30mm(W) x 25mm(D)
Dimensions armature: 182mm(L) x 30mm(W) x 23.6mm(D)
